LIME PAINT

LIME PAINT

Derived from genuine aged slaked lime, Lime Paint is a highly durable decorative solution that brings a sense of warmth, authenticity and history to any space. The finish is capable of producing natural effects, such as small cracks, irregular textures and variations in colour.

Lime Paint is adaptable in all concepts, modern, contemporary or rustic. It is perfect for use in residential as well as commercial spaces, adding a touch of Italian heritage to your spaces.

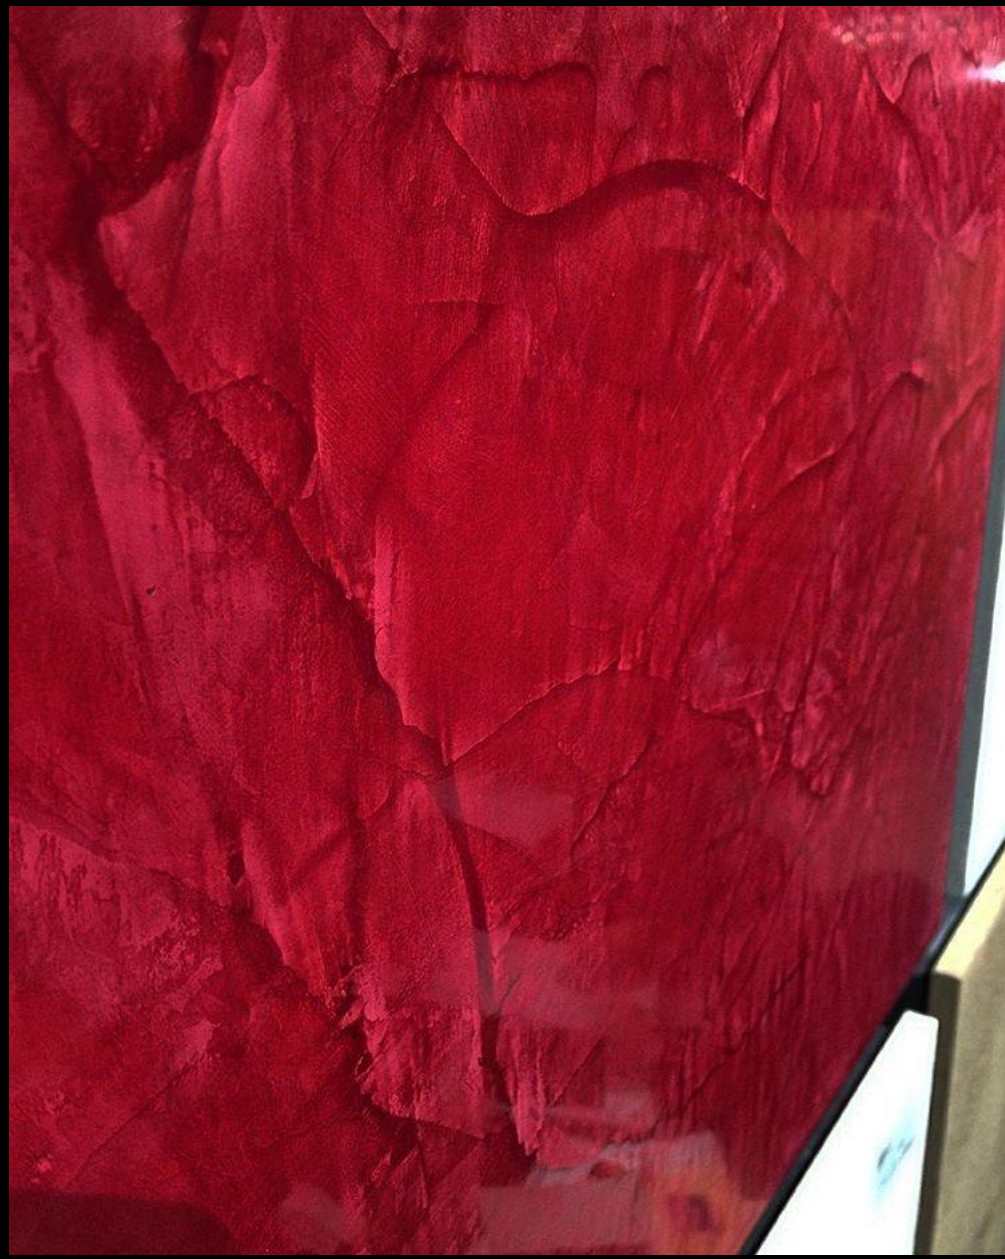

- Quick and easy application
- Odourless
- Environmentally Green product with zero VOC
- Highly customizable with respect to colours and effects
- Compatible with all paintable substrates
- Supports limited fragmented repair
- Adaptable in all concepts, classical, modern or fusion.

ISPEGU

ISPEGU

Ispegu is made from genuine finely filtered aged slaked lime with natural fillers and selected binders. It has an excellent filling power and a natural resistance to mold and bacteria.

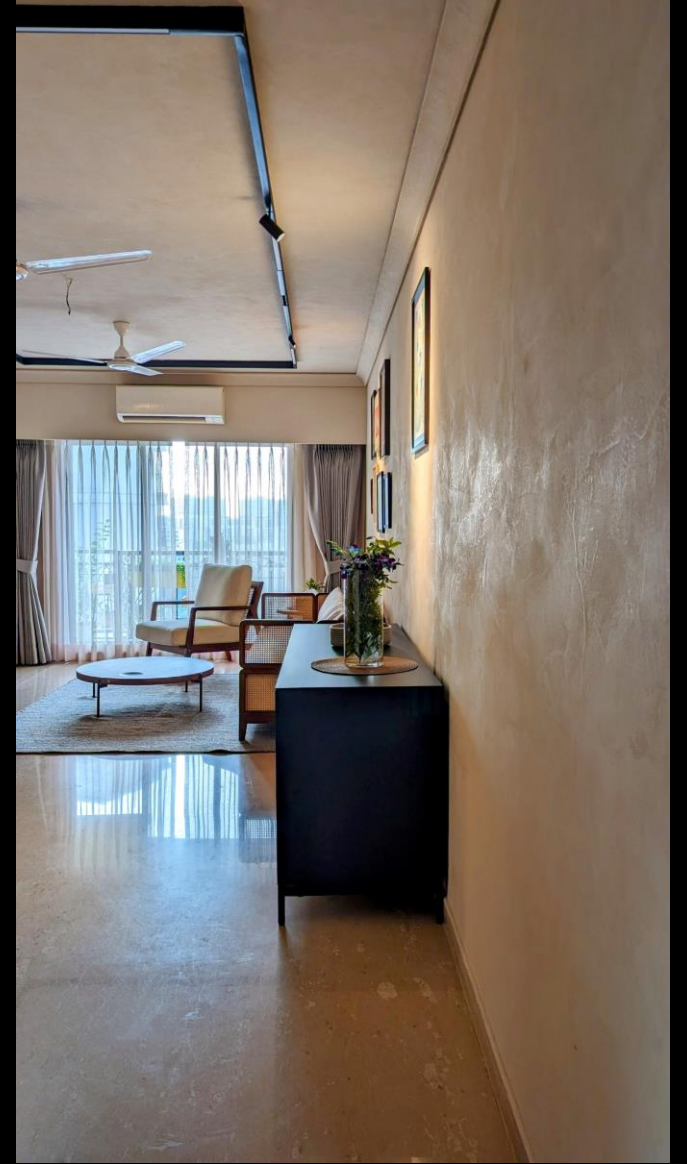

Suitable for interior surfaces, it creates a fine marble look, which is smooth and may possess either high gloss or may be matt.

- Quick and easy application
- Odourless
- Environmentally Green product with zero VOC
- Highly customizable with respect to colours and effects
- Compatible with all interior paintable substrates
- Supports limited fragmented repair
- Adaptable in all concepts, classical, modern or fusion.

TATTO

TATTO

Tatto is a natural lime plaster made from genuine finely filtered aged slaked lime, marble aggregates, quartz sand, natural fillers and selected binders. It has an excellent filling power and a natural resistance to mold and bacteria.

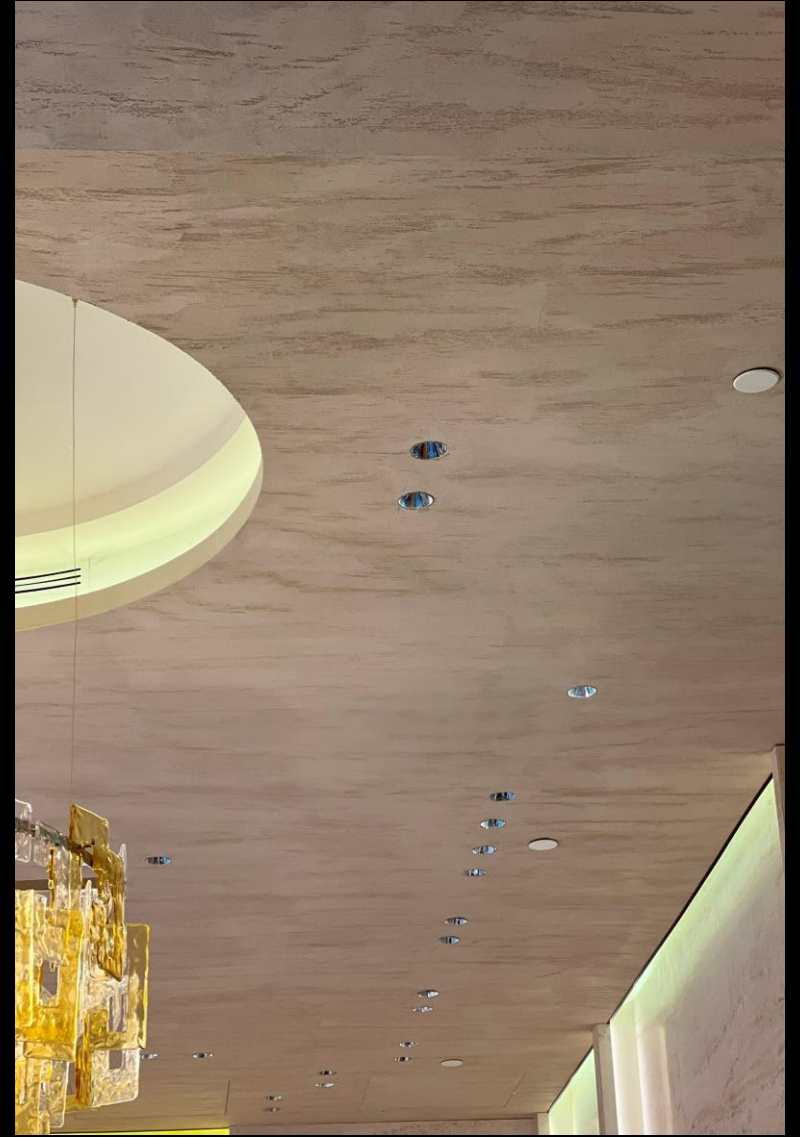

Suitable for interior and exterior surfaces (with Idro Sealer on top), its unique composition allows to create satin and velvet touch surfaces.

- Quick and easy application
- Odourless
- Environmentally Green product with zero VOC
- Highly customizable with respect to colours and effects
- Compatible with all paintable substrates
- Supports limited fragmented repair
- Adaptable in all concepts, classical, modern or fusion.

TESEO

TESEO

Teseo is a plaster material made from genuine finely filtered aged slaked lime, marble aggregates, quartz sand, natural fillers and selected binders. It has an excellent filling power and a natural resistance to mold and bacteria.

Suitable for Interior and exterior (with Idro Sealer on top), its unique composition creates textured and scratched surfaces similar to travertine marble.

- Quick and easy application
- Odourless
- Environmentally Green product with zero VOC
- Highly customizable with respect to colours and effects
- Compatible with all paintable substrates
- Supports limited fragmented repair
- Adaptable in all concepts, classical, modern or fusion.

INCANTO

INCANTO

Incanto is a plaster material made from genuine finely filtered aged slaked lime, marble aggregates, quartz sand, natural fillers and selected binders. It has an excellent filling power and a natural resistance to mold and bacteria.

Suitable for Interior and exterior surfaces (with Idro Sealer on top), it creates textured effects even with high thickness, preventing it from cracking.

- Quick and easy application
- Odourless
- Environmentally Green product with zero VOC
- Highly customizable with respect to colours and effects
- Compatible with all paintable substrates
- Supports limited fragmented repair
- Adaptable in all concepts, classical, modern or fusion.

LUCE

LUCE

Luce is a hydraulic lime based masonry covering with a metallic finish for exteriors with mineral binders, which is anti- algae and anti mold.

Suitable for interior and exterior surfaces (with Idro Sealer on top), it is capable of creating smooth, satin and velvet touch finishes or rough textured and undulated effects.

- Quick and easy application
- Odourless
- Environmentally Green product with zero VOC
- Highly customizable with respect to colours and effects
- Compatible with all paintable substrates
- Supports limited fragmented repair
- Adaptable in all concepts, classical, modern or fusion.

TADELAKT

TADELAKT

Tadelakt is a typical Moroccan plaster finish obtained with genuinely finely filtered aged hydraulic lime, calcareous aggregates, clays and special binders. It has excellent filing power and natural resistance to mold and bacteria. The finish is lightly textured but smooth and matte.

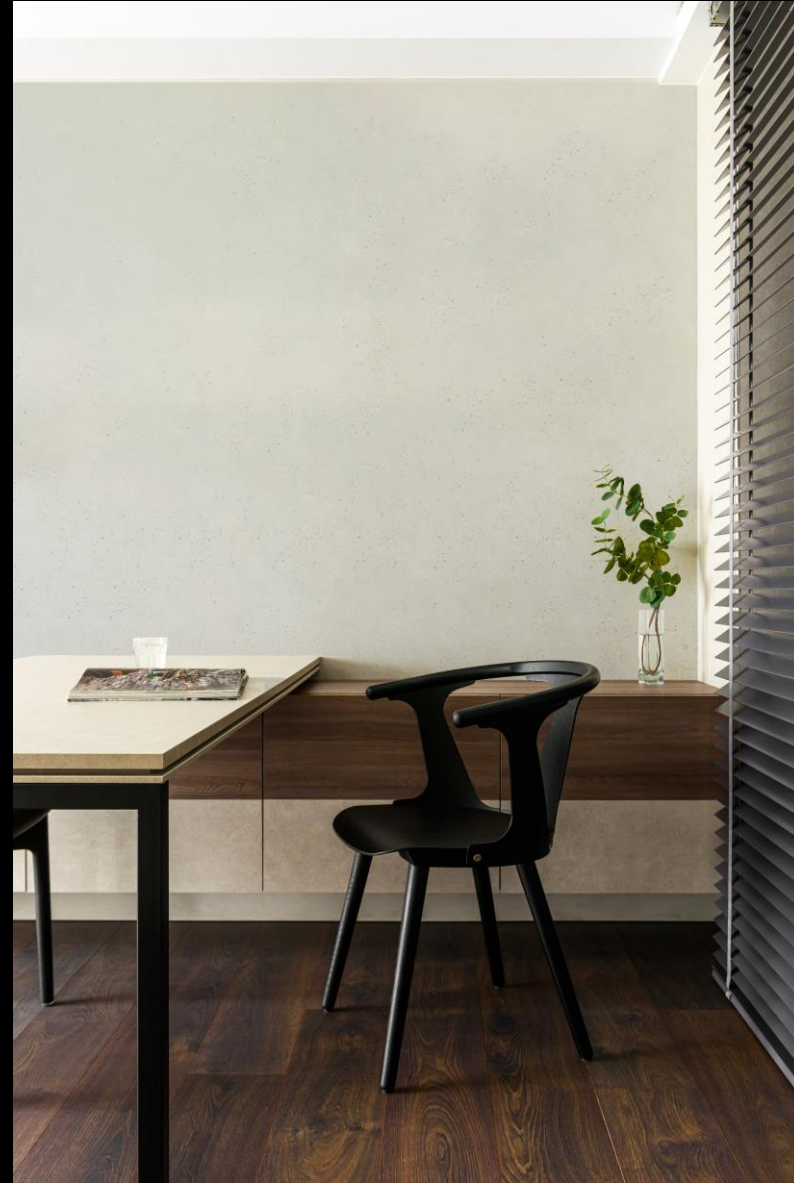

Tadelakt is suitable for interior and exterior surfaces, especially in humid climatic conditions. Perfectly stable over time, it maintains the breathability of the surface thanks to its outstanding water vapour permeability.

- Quick and easy application
- Odourless
- Environmentally Green product with zero VOC
- Highly customizable with respect to colours and effects
- Compatible with all paintable substrates
- Supports limited fragmented repair
- Adaptable in all concepts, classical, modern or fusion.
